Yacht Description:

The **Abacus 62** has been designed by the famous yacht designer Fulvio De Simoni. Its stylized hull line and a superstructure with an aerodynamic fly bridge create a very modern and aggressive look.

The "touch" by De Simoni has created a yacht where the design, functionality, comfort and performance gather in a unique and refined combination. **Abacus 62** has large spaces that allow you to live on board for long periods in great comfort. Our guests are "spoiled" by numerous attentions: all lounges have air conditioning with independent controller; many structures have electric/remote control: doors, ladder, stereo equipment, LCD TVs, refrigerators and all sorts of appliances.

This is a yacht described as a floating villa overlooking the sea. A villa that can travel up to 30 knots (56 kmh) on cruise.
